BETTER CAR SERVICE

Employees and Officials of
M. V. T. Co. Discuss
Plans Today.

With all live stock entries closing this evening and all of the entries to the remaining departments, including poultry, closing tomorrow, Secretary John S. Scott stated today that the present indications are that the Fairmont Fair this season will be better balanced and filled in each department than ever before. The Horticultural and Floricultural displays alone will be worth a visit to the Fair as all of the local florists are striving to outdo each other in their exhibits.

The officials of the Monongahela Valley Traction company met with their men this morning and are planning the best possible service to the grounds. Vice President Smith Hood stated today that no accident on the Fair Ground line had occurred during the past four years and that the possibility of an accident this year had been reduced to the minimum. Every employee is striving hard to help maintain this enviable record.

Cars this year will be run all the way up town instead of stopping at the B. & O. station as in former years. Since Cleveland avenue has been widened and paved it is thought that plenty of room for both vehicles and the trolley cars is now available and the Fair Ground cars will now run up town stopping at the corner of Main and Jefferson streets.

Secretary Scott today is busy attending to the various shipments of horses from other fairs that will arrive here beginning tomorrow morning. The Parkersburg, Kuttanning, Pa., and Warren, O. fairs will each likely send several car loads of race horses to this town and by Monday morning everything will be in readiness to insure some of the fastest and best racing ever seen on the local track.
